## Vision 155 Series Ice and Beverage Dispensers

### Upscale drink stations

High-capacity, low-profile ice and beverage dispensers with under-counter ice storage and beverage rail with 8 or 10 valves. Up to 150 lbs (68 kg) of ice storage. With or without integral ice water bath beverage cooling. Perfect for beverage islands because visibility is not restricted. Includes QuickCarb™ technology so changing from carbonated to non-carbonated beverages is as easy as the flip of a lever.

### Easier, more sanitary ice dispensing

Manually load ice from the front or the rear of the dispenser at a safe, easy waist height. Eliminate dangerous ice loading from ladders. Choice of left or right side dispensing chute doubles the throughput by allowing one person to select a beverage flavor while a second person is dispensing ice.

### VU155N Series for ice and water dispenser

Ice and water or ice-only dispensers with under-counter ice storage. Up to 150 lbs (68 kg) of ice storage. Great for use in beverage islands since visibility is not restricted. Dispensers are auto-fill ready to accept Chewblet® ice machines with RIDE® remote ice delivery equipment.

## Features

150 lb (68.0 kg) undercounter ice storage

Upscale drink station

- low profile with ice storage under the counter
- auto-fill with an ice machine out of view using RIDE® remote ice delivery equipment
- ideal for island configurations
- fits into ADA compliant 34.00" (86.3 cm) counters

Optimized throughput with customizable left or right side ice dispense chute – customers fill cups faster for shorter lines

Integral ice-water-bath beverage cooling option located behind beverage valves – delivers cold, high quality beverages and excellent casual drink performance

Durable, full stainless exterior

Easier beverage connections

- Beverage valves with factory installed beverage lines for easy field connection
- 4 center valves configured as QuickCARB™ valves, individually changeable from carbonated to non-carbonated flavors without disconnecting water lines

Pre-configured for Follett® RIDE model Chewblet® ice machines

- connect up to two Follett ice machines
- user-preferred, chewable compressed nugget ice
- slow melting, maintains drink temperature
- accepts Chewblet ice or Micro Chewblet ice

Faster, safer manual loading of ice at waist height

- safe, easy waist-height loading front or rear
- eliminates overhead lifting of buckets or loading from ladders
- allows quick reloading during serving period with minimal disruption
- may be manually loaded with cube ice up to 1.00" (2.54 cm) square
